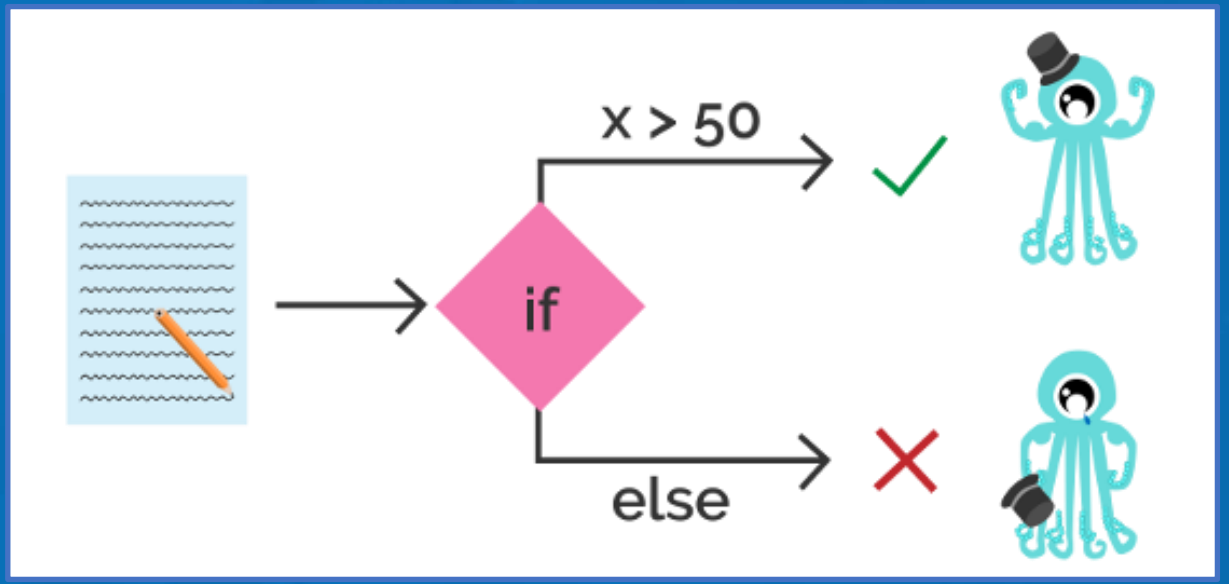
Summary

ZENVA

Statements

- if
- else if
- else



ZENVA

if statements

```
if (/* Condition here */ ) {

  console.log("Run this ONLY if the condition is true!");

}
```

ZENVA

else if statements

- Create multiple possible paths
- Only a single path will be executed (evaluated from top to bottom)

```
if (/* Condition 1 */) {

  console.log("Run if condition 1 is true");

}

else if(/* Condition 2 */) {

  console.log("Run if condition 1 is false, and condition 2 is true");

}
```

ZENVA

else statements

- Executed if none of the other conditions are **true**

```
if (/* Condition 1 */) {
  console.log("Run if condition 1 is true");
}

else if(/* Condition 2 */) {
  console.log("Run if condition 1 is false, and condition 2 is true");
}

else {
  console.log("Run if neither condition 1 or 2 are true");
}
```
