

Summary

Operators

- Addition
- Subtraction
- Multiplication
- Division
 - Modulus (division reminder)

Addition

```
// addition  
let a = 1 + 1;  
  
// result: 2  
console.log(a);
```

Subtraction

```
// subtraction  
let b = 2 - 1;  
  
// result: 1  
console.log(b);
```

Multiplication

```
// multiplication  
let c = 3 * 2;  
  
// result: 6  
console.log(c);  
  
// multiply by 2  
c *= 2;  
  
// result: 12  
console.log(c);
```

Division

```
// division  
let d = 8 / 2;  
  
// result: 4  
console.log(d);  
  
// divide by 2  
d /= 2;  
  
// result: 2  
console.log(d);
```

Modulus (division reminder)

```
// 10 divided by 3 is: 3 with, a reminder of 1  
// the modulus operation gets the reminder  
let m = 10 % 3;  
  
// result: 1  
console.log(m);
```
